

MARILYN MONROE / LOVE YOUR KISS FOREVER FOREVER.

# JADE WHITE BUTTERFLY

I laugh  
walk under green sunshine  
sleep naked top roof  
alone look sun  
alone kiss small canella  
wine and I cook spring  
spring come happy long  
spring gone happy short  
spring gone happy go  
if somebody saw  
we go together

flower fresh not always here  
man not always here  
morning become evening under my body  
morning kiss pink rainbow blue sky green sun  
morning evening make love to orange horse black spider  
purple evening moon time blossoming heart  
yellow moon time blossoming heart  
I see self inside big dream  
little green grass happy outside  
outside dream beautiful lady laugh inside dream small boy cold  
small boy lying in dream  
play shadow play moon play flowers  
play sell

three o'clock laugh four o'clock not laugh  
last night sleep with clothes  
tonight sleep with clothes  
why I not naked sleep top roof  
hot sun not laugh me  
warm wine come warm tears come  
idle smile idle dream pass idleness  
day night skin sour  
night day bones short  
february flowers not smile  
march pearl sick  
where happy  
who want sad?

after jade white butterfly lullaby  
I become much wing  
my hair black long three thousand yards  
butterfly live only one day  
why not live ten thousand years  
I not cry  
I laugh  
blowing dust away  
blowing whole world mournful away  
one life too short  
one day too long
